**A DEMOCRATIC DARK HORSE.**

From a reliable Democratic source we learn that the Democrats have a very dark horse in the political stable. In fact, he is jet black, with a mane and tail that will cover all other nags from view when he is taken out where a little Democratic wind can toy with them. His neigh will be heard in the remotest corners of the State when the blankets are stripped off. He is in the charge of several of the best political grooms in that party. Standing in the secret chamber of the unturfed and reviewing the rank and file with the new man in the background, would be the means of causing J. W. Adams and Captain Matt Canavan to seat their partners and wait until the next dance is called before they attempt to crowd themselves upon the floor. The Republican nominee, whoever he may be, is thought to be the only man capable of carrying the new Democratic party. The new man may hail from the East, but you must do your own guessing.

**SCORE ONE FOR SILVER.**

The new Bank Charter Act, passed by the present Congress and approved by the President, among other things, provides that no national bank shall be a member of any clearing house in which gold and silver certificates shall not be receivable in the settlement of clearing-house balances. This, says the *San Francisco Chronicle*, is offensive to some of the leading papers of New York; but it will satisfy the country, because it favors the equality of silver with gold as a currency of the country. The balance of trade has been in favor of the United States for three years; but, as imports and exports are now running, it is clear that it will soon be against us, unless our crops shall be more than normal, and those of England and Europe short. In that case we shall lose all the gold we have gained from Europe since 1878, and silver will come again into brisk demand as a circulating medium.

**EDITORIAL NOTES.**

The *Ward Reflex* wants to see Capt. John E. Plater, of the banking firm of Plater & Co., act as the Democratic standard bearer this Fall. The same paper refers to Lieutenant Governor Adams in this unfeeling way: "We think that if Adams is the Democratic candidate for Governor that it will be sure defeat. If going round smiling, shaking hands and drinking are qualifications, then he should win by all means. He is on the Cassidy-Garrard slate, and unless it can be broken the deed is about as well as done, and defeat stares the party in the face."

**British Columbia News.**

**San Francisco, July 25.**  
 A Victoria dispatch of yesterday says: The election in the House of Commons resulted in the election of Baker for Secretary of the Board of Trade, and Shakespeare, Mayor of the city. Deane was defeated by an enormous majority. His views in favor of independence and other eccentricities, caused his defeat.

**A Brutal Murder.**

**San Francisco, July 25.**  
 It is reported that Watta, the former mate of the ship "Gatherer," who was arrested at Cork on his arrival as mate of the ship "Imperial," killed a man named Logan, during the voyage of the "Imperial." Logan's relations at Cork made inquiries as to whether he sailed hence in the "Imperial," and it was ascertained that John Logan signed the articles of the "Imperial," here, as an ordinary seaman, English, and aged 32.

**Geo. P. Marsh, American Minister at Rome, died suddenly at Vallombrosa yesterday.**

The Italian Government has expressed its sympathy with the widow, and telegraphed to Washington an expression of the sympathy of the Italian nation.

**TO-DAY'S NEWS**

Press Dispatches to Evening Gazette.  
**EASTERN.**  
**CHRISTIANBURG, Va., July 25.**  
 Captain John S. Wise, the Republican candidate for Congress at Large, and John S. Crockett, Commonwealth Attorney of Wythe county, came to this place on the early train this morning and fought a duel near here with pistols. At the first round both fired at the word, but without effect. At the second round Crockett's pistol went off prematurely. After reloading the weapon both combatants were placed in position for another exchange of shots. Wise's pistol missed fire and Crockett's shot was, as in the first round, harmless. Crockett, the challenged party, expressed himself satisfied and the fight terminated. The meeting had its origin in a personal recore which took place Monday, the 17th inst., at Maroon, when Wise met Crockett and interrogated him about certain language which Crockett attributed to him (Wise). Crockett acknowledged he made the statement and said it was true. Wise denounced it as false and struck Crockett. Before the latter could resent the blow, outsiders intervened, and both were arrested and fined. This caused subsequent correspondence which resulted in the duel.

**A Sickly White.**

**WASHINGTON, July 25.**  
 The President is said to have adopted a new rule which will soon result in placing only Stalwarts in office. Where a Stalwart's term expires, he will reappoint him or will replace them with Stalwarts. The truth of this is apparent from the fact that there are 186 Presidential offices in Pennsylvania and the President has made appointments already for 75 of them, or about 40 per cent. In New York there are 276 Presidential offices and the President already nominated 80. Of 82 nominations to office in New York State but 3 were successive nominations to one place. Of the 22 Collector's offices President Arthur has appointed 19, or 82 per cent. who have been known as pronounced Stalwarts, or procured their appointments through unmistakable Stalwart influence. A prominent New York Congressman says 90 per cent. of all the New Yorkers who have been appointed to offices by the President are Stalwarts. An examination of the list of the 82 nominations referred to above shows 5 of them are women to Postoffices. Deducting these and of the 77 remaining, not less than 54, or 70 per cent., are either men known as Stalwarts or appointed through Stalwart influence.

**Taffy on a Stick.**

**New York, July 25.**  
 The newly arrived Chinese Ambassador, when asked for his opinion as to the right of the Chinese to go through this country on their way to China, replied he feared a strict interpretation of the Act would not give them this privilege. He had called the attention of President Arthur to the matter when the twenty-year Act was under the consideration of Congress, and had entered a protest against it. The most friendly feeling toward the United States existed in China, which he believed was reciprocated here, and he did not think that the United States would permit this injustice to prevail. He hoped that Congress would find a way out of the difficulty. The matter was serious, and demanded careful attention. The Ambassador will leave for Washington this morning.

**What Young Can Expect.**

**Chicago, July 25.**  
 A special from New York says: Reports, purporting to come from Hong Kong, under date of June 27th, intimate that intrigue has been put into existence to ostracize John Russell Young on his arrival in China as United States Minister; that the friends of Mr. Denny, United States Consul at Shanghai, claim that Grant had promised him the Pekin mission, and Li Hung Chang had urged his appointment. A reporter called at Grant's office this morning to ascertain the truth of the report. The General was not in town, but a friend, whose position qualifies him to speak with authority, said the story was perfectly absurd.

**The Role of Resistance.**

**LITTLE ROCK, July 25.**  
 Crawford Morrell, member of a band of notorious thieves and blacklegs, in Howard county, was shot dead by a posse trying to arrest him and whom he resisted. It is feared his comrades will avenge his death, and that serious bloody tragedies will follow.

**Wife Murder.**

**Lincoln, Neb., July 25.**  
 Sunday night Wm. H. Reid, a farmer in Gage county, shot and instantly killed his wife, who had sought refuge from his brutality with her son-in-law. The murderer is in jail at Beatrice.

**Bad Banking.**

**Chicago, July 25.**  
 A special says Willard's failure and flight from his bank in Jonesboro, Illinois, grows hourly a more desperate affair. It looks now as though the

shortage would be \$200,000 and the assets practically all Willard's whereabouts are kept secret. The general opinion is that he lost nothing by speculation, but that it is an out and out robbery. Some suspicion is directed against his family, on account of acts of doubtful propriety, done since his disappearance.

**"Lucky" Baldwin in New York.**

**New York, July 25.**  
 The *Tribune* has the following: "E. J. Baldwin, the San Francisco millionaire, is now in this city, making preparation for the irrigation of his land by conducting water through iron pipes down from mountain streams. Baldwin owns 20,000 acres of land, a large part of which is used for raising grapes and oranges. He states that immigration is rapidly flowing to that region, and that values have increased at least twenty-five per cent. within the last year. In reference to the scheme to create a new State out of the southern portion of California, and to make Los Angeles the capital, Baldwin said it originated with politicians, and would be very likely to end there. People do not wish it, and the interests of the two sections are the same, and there are no geographical or any other reasons why a division should be made."

**The Canadian Pacific.**

**New York, July 25.**  
 A dispatch from Winnipeg, received by J. S. Kennedy & Co., agents of the Canadian Pacific Railway Company in this city, from Geo. Stevens, President of the company, says: "I have just returned from the end of the track which is now 295 miles west of Winnipeg. The contractors are laying from 3 to 4 miles per day and, barring accidents, I have no doubt of our completing 500 miles of main line track this season, bringing locomotives 300 miles west of Saskatchewan river by December next. Crops looking splendidly and traffic on the part of the line in operation will look up this year about \$2,000,000, exclusive of earnings on the eastern division."

**Her Life For Whisky.**

**KENOSHA, Wis., 25.**  
 A wealthy and reputable woman of Evanston, Wyo., who had an unquenchable appetite for drink, was made drunk by a gang of loafers, taken to the woods near the city and repeatedly outraged by them. The affair coming to the knowledge of the officers, the woman was secured in a famishing, besotted condition and taken, half dead, to a place of safety. Several of the parties are arrested and others will be.

**A Wise Conclusion.**

**WASHINGTON, July 25.**  
 The Cabinet discussed the Attorney-General's views on political assessments to-day. The President believed nobody in any executive department, declining to contribute should be discharged, or criticized, or any attempt be made to injure him therefore and that no such action will be tolerated.

**Another Strike.**

**CHICAGO, July 25.**  
 The iron ore unloaders at South Chicago have struck, and the scenes of the Joliet strike, which was long and brutal, are likely to be repeated unless a compromise is effected. The necessity for men is more pressing now than last Spring. A number of stevedores of several lake lines are striking, and dock troubles multiply.

**FOREIGN.**

**Horrible Butchery.**

**ALEXANDRIA, July 25.**  
 The moped Egyptian has reappeared here, withholding the official journal from the government of the Khedive. It contains a proclamation dismissing Arabi Pasha from the Ministry. Inspector of Casadestras at Toulah, speaking of the massacre, says: "I saw a woman carrying, tied to bludgeons, the dismembered arms and legs of massacred Europeans. The soldiers and rabble fought for loot. A Bedouin Sheikh, with 20 Bedouins, saved the inhabitants of the Jewish quarter, and took them to the village. Another Sheikh saved myself and party. The mob from Alexandria murdered three employees of Casadestras and their families, and burned their bodies with petroleum. They also killed twelve Greeks. They tied victims, one of the victims, to the tail of a dog and covered him with petroleum, which was set on fire amidst cries of joy from the women and children. Finally two Shiaks arrived and dispersed it."

**A Skirmish.**

**ALEXANDRIA, July 25.**  
 Arabi Pasha's front fell back last evening to the other side of Ramleh, forcing on the British another reconnaissance. At 5 o'clock the 60th Rifles marched out, intending to occupy Ramleh, unless defeated. The Infanterie was ordered to shell Arabi's cavalry out of Ramleh. A detachment of the 60th Regiment proceeded to attack the enemy under cover of the ship's guns. The enemy's cavalry fled upon a volley being fired from the bridge. One of the horses was struck and one of their men wounded. They fled at a hard gallop, and after a lapse of some time returned with reinforcements.

**The Queen's Message.**

**LONDON, July 25.**  
 In the House of Commons this afternoon the Speaker received a message from the Queen announcing the calling out of reserves for Egypt. Gladstone moved the message be considered to-morrow. A number of reserves left this morning to join the regiments ordered to Egypt.

**A Cowardly Attempt at Murder.**

**MADRID, July 25.**  
 A small box, which was sent from Granada for Senor Sagasta, Premier Minister, on being examined was found to contain nitro-glycerine. Several persons have been arrested on suspicion.

**Closing Up the Gap.**

**ALEXANDRIA, S. P. M., July 25.**  
 The outposts of Arabi Pasha have retired about 1,000 yards and the British have advanced about 500 yards. There appears to be some disturbance inside of Arabi's intrenchments.

**Peasants and Laborers.**

**VIENNA, July 25.**  
 A conflict occurred on the railway between peasants and laborers at Dombrova, district of Dovan. Fourteen persons were killed.

**WESTERN.**

**More Coolies.**

**SAN FRANCISCO, July 25.**  
 The British steamer *Triumph* arrived this morning from Hongkong via Hakodate and Honolulu. She brings 795 coolies. At Hakodate she took on the Chinese passengers of the wrecked steamer *Mary Pitham*, and landed them at Honolulu. No disease on board, but she is ordered to temporary quarantine, pending a closer examination.

# Reno Evening Gazette

TUESDAY, JULY 23, 1889

## PERSONALS.

Dr. Guion will locate in Surprise Valley.

C. E. Laughton, Carson, was here last evening.

W. A. Morrison left for Bidwell on this morning's stage.

H. J. Thyes and family, returned from Donner lake this morning.

Miss May Sharkey, Summit, Plumas county, is registered at the Palace.

E. M. Jones, of the San Francisco Bulletin, is registered at the Arcade.

W. T. Kirkpatrick will shortly pitch his tent permanently in Philadelphia.

Mrs. Capenhansen, the Bidwell mail contractor, is expected up from San Francisco in the morning.

Jack McGee, of the firm of Orndorff & Moties, Virginia, left Reno for Denver, Col., this morning.

W. E. Jones, Summit, Plumas Co., Cal., was in town yesterday. He returned to his home by this morning's stage.

A. H. Frank, the moneyed man of the Voltaire Mining Company, came in from Buffalo, N. Y., last night. He left for the mine south of Carson this morning.

Thos. Corbett, Bradford, Pa., came in last night en route to Quincy, Cal., where he goes to set up a lot of machinery for the Eureka Plumas Mining Company.

E. M. Hunt and wife, Carson, were passengers for San Francisco last night. They are leaving this State for good, and if they find a desirable location they will settle in California.

## JOTTINGS.

Good Templars meet to-night.

Two cars of emigrants passed west last night.

The stages for the north go out loaded every day now.

W. J. Luke has three wagons for sale. See 50 cent column.

The passenger train from the West was thirty minutes late this morning.

Judge King yesterday granted A. M. Griswold a divorce from S. M. Griswold.

A good girl can find an easy situation by applying at this office. See 50 cent column.

The military drill was not as well attended last night as Captain Moger would like to have seen.

Gold, silver and nickel watches at Nasby's. Thermometer at 7, 9, 11, 1, and 3—64, 74, 77, 79, 83.

The Palace Hotel opened one year ago to-day. The house has enjoyed a large patronage and is growing in popularity daily. J. A. Fitzgerald has proven himself a very competent manager.

The Reno Orchestra Band has re-organized, and consists of eight members. Prof. Koffman has been replaced by a clarinet player from California. It is said the change has improved the band.

Candidates in nearly every county in the State are coming to the front. New announcements appear in nearly every issue of the daily papers in the Eastern counties. It is a good idea, for it gives voters time to look over the field and work up a boom for their friends.

## Hansen's Mistake.

P. N. Hansen, Eureka, lately paid the Asylum a visit. On his return home he gave the *Sentinel* a long account of what he saw. He said the contract price for building the Asylum was \$60,000 and the actual cost was \$63,600. Manning & Berry assumed and paid the difference, \$3,600, and were willing to take their chances with the next Legislature to be reimbursed for the advance. In this particular he is mistaken. Manning & Berry have not assumed, and paid the difference. Neither do they propose to go to the Legislature with a relief bill, asking to be reimbursed.

## Deserving Punishment.

H. J. Thyes, who has been spending several days at Donner Lake, reports that the shore of that beautiful sheet of water is lined with dead fish. Some miscreant exploded giant powder cartridges in the water, thus murdering tons of fish. They have been drifting to shore for four weeks, and at least 10 tons have been buried. The Fish Commissioners ought to take measures to find out who was guilty of the offense and have them prosecuted to the full extent of the law. Mr. Thyes says fish are not taking the bait at all now.

## Discharged.

The Central Pacific Railroad Company has discharged six freight-train and two passenger conductors within the past week. Charley Allen and "Lank" Hanna were among the number laid off.

## For the Denver Exposition.

The mineral cabinet of Orndorff & McGee, formerly of the Delta saloon, Virginia City, is being packed and will be sent to the Denver Exposition for exhibition. This is the largest private cabinet of specimens in the State.

## STATE FAIR.

The Speed Programme—Special Premiums—A Rousing Fair Expected. The Trustees of the N. S. A. M. & M. Society held an adjourned meeting at Myers' drug store this morning and made up the following excellent speed programme:

### SIXTH DAY.

No. 17, Trotting—2:50 class; for all horses owned six months prior to the Fair in the State of Nevada, or in the counties of Sierra, Plumas, Lassen or Modoc, California, or Grant or Lake counties, Oregon; purse \$400; first horse \$200, second \$150, third \$50.

No. 18, Trotting—2:32 class; free for all; mile heats, best three in five; purse \$300; first horse \$200, second \$100, third \$50.

The Trustees will meet again tomorrow and make further arrangements. A committee will be appointed to solicit special premiums for every department. The Trustees and citizens are taking hold of the business new as if they meant to make the Fair a success, and if they show as much energy from now until October as they have in the past two weeks the Fair will be the best ever given in Nevada.

## Miss Handy's Reading.

The reading of Miss Handy at the Methodist Church last evening was most excellent, and it seems a shame that such an entertainment should be so poorly attended. The lady is an earnest believer in the elevating influences of her profession and for the good of the young people of this town proposes to organize a class in elocution. She will hold a meeting this evening at the Methodist Church for this purpose and the Gazette earnestly hopes that all who desire to see the taste of our people elevated above a circus or snide minstrel show, will be in attendance, whether they desire to join the class or not. Let there be a full house of the young people.

## Improvements.

The Commissioners are thinking of erecting a fountain in the Court House yard. It is an improvement much needed, and would add greatly to the appearance of the grounds. With a new coat of paint on the building, a nice fountain in the yard, and the grounds surrounded by the new iron fence already ordered, Washoe's Court House and grounds would be a credit to any county in the land.

## Returned.

Hugh Darrah, the well known conductor on the passenger train between Truckee and Winnemucca, returned from a visit to Canada last night. On his arrival at Truckee, the Truckee brass band gave him a hearty reception. Hugh returns much improved in health. He looks like a Wall street stock speculator.

## Suicided.

George Curry, an employee of the Truckee Lumber Company, committed suicide in Truckee Sunday evening by shooting himself through the head. He lived for a few hours after firing the shot.

## "GAZETTE" CORRESPONDENT.

An Interesting Letter from Southern California.

UNION, July 10th, 1889.

EDITOR GAZETTE: We are having a "spell" of hot weather, the thermometer registers as high as 108 in the shade, but the nights are cool and refreshing. Ice is very scarce and high, none is kept except in one or two saloons, who have it shipped from San Francisco at a cost here of about 3 to 4 cents per pound. Ice cream is a luxury rarely indulged in, in fact cream of any kind is scarce, so is good butter which is hardly to be had at 75 cents per roll. There is but one dairy that I know of in the county, the product of which is always engaged before hand, hence we, at times, have to eat our hot cakes without butter.

THE EXTENSIVE STOCK.

Ranges are all used for sheep, probably because it requires less labor and care to attend to them, and the profit of a sheep range is equally as good, if not better than that of a dairy with the same amount of capital invested. Still, a good dairy would pay all the year around, as the supply of butter is never up to the demand. The wool growers are now bringing their Spring clip which is graded and baled in powerful presses, and some of it shipped direct to the East. There are several hundred tons awaiting shipment now and many are holding back their clip, waiting for better prices.

SEVERAL OLD WASHOES.

Are engaged in sheep raising here. Mr. Haugh, formerly Superintendent of the Mexican Mill, and James Sturtevant, of Washoe Valley, own quite a tract of land and many thousands sheep. Contrary to the old supposition that sheep will impoverish the land and exhaust the fertility of the soil, it is now, after fifteen or twenty years pasturage, demonstrated that each succeeding year the feed increases in quantity and quality, and a sheep ranch once bought for a song now commands a good sum of money.

HOES.

Are also one of the staples of this section. This year's crop is reported to be in excellent condition. The average yield of an acre of hops is about 1,200 pounds, although some ranches yield as high as a ton. The cost of cultivating, harvesting and marketing is about \$150 per acre. Hops are now held at 30 cents per pound. Take 1,200 pounds of hops at 30 cents per pound, deduct \$150 and you have the net profit.

THE VALLEY.

This valley is in many ways favored by nature. The climate is healthy, the water is good, fruit abundant and the people prosperous, still we are not entirely happy; it seems that every rose has a thorn, and the thorn that pricks this people is FLEAS.

I venture to assert that there is not an insect more annoying to humanity than the flea, always hungry and never tired; its bite is more acute and tortuous than that of any other pest. Flies and bugs take a time for rest or sleep, the flea never does, always bloodthirsty he keeps at work without regard to time or place. He makes children fret, women cross, and men—well, we are not angels and do not weep, but the flea makes man forget decorum and good manners in company, disregard the sermon from the pulpit, and whisper anathemas while he should be saying prayers in church.

THE FOURTH.

Came and went very quietly, we had a procession and laying of the corner stone of the Methodist Church by the Masons, an instructive and eloquent oration by Rev. Mr. Shummons, of San Francisco, the beauty of which was lost, however, when he concluded with an appeal for contributions of filthy lucre from those who had not come for that purpose. We are blessed with a good deal of religion, and gospel in this place, and the people delight in paying for it. Our ministers seem to know each house in town or country where the ladder is well supplied. For instance: Being out of town the other day at a friend's, a party drove up, stopped in front of the house and inquired the dinner hour of the family. Being informed, the male member of the party simply said: "Tell Mrs. we'll be back for dinner," and drove off. Immediately everybody was set to work making cakes, preserves and pies. Yellow-legged chickens were chased, killed and cooked; and at the appointed time—the party having returned—a feast was spread before them. The whole proceeding did look odd to me, but upon inquiring I found the visitor to be the parish minister, and such "left-handed" invitations are accepted in good faith, while good care is taken that yellow-legged chickens are on the table. But to return to the Fourth. In the evening we had a ball given by Ukiah's fire brigade. Let me tell you something about it.

THE FIRE DEPARTMENT.

We have an ancient hand-engine, bought second-hand, about 10 years ago in Fatslama—practical value, I am informed, it has none; but it may have some value as a piece of antiquity, like an old saddle, for it's age, like a painted and powdered old maid, nobody can tell. It is never taken out for practice. First, because it would needlessly wear and tear the very few lengths of leather hose that are with the apparatus. We have a very economical Board of Town Trustees, who want to make things last as long as possible, and if, on oc-

casions of fire, the engine should pump

wind on account of its dryness, why you know there are plenty of buckets in town, which do better service than the machine. Secondly, it is too much work; we have no fire cisterns nor any running water in ditches, like you have, and the motive operandi of this "masheen" is, I am informed, as follows: Upon an alarm the largest wash-tub in town is borrowed, placed under the nearest town pump and pumped full; this tub supplies the engine as long as the boys at the pump holds out, but when they get short of wind the engine gets full of it and is hauled to a safe distance to keep from being burned, while, the fiery element is combatted with buckets, and if the property should burn, our machine, at least, is saved, and ready for another struggle. While I do not want to see a fire here, I would like to see the valiant boys at work.
